

DUPLICATE RECEIPTS

ATA Taximeter – Irish market firmware – Pulsar Europe – PRIMUS RS-01 & S-01 – 2026

NOTE

Two different jobs

Reprinting the receipt for the job you have just finished is one button. Going back and finding an earlier job is a short trip through the menu. Both are below.

The meter keeps ten

The last ten completed jobs are held in memory and can be reprinted by date. The eleventh pushes the oldest out, so if a passenger is going to look for a receipt, sooner is better than next week.

The meter remembers where you were

To save you scrolling, the meter remembers the last menu you were in. Press Button 3 from "FOR HIRE" and it will offer that same menu again first. If nothing is pressed for 10 seconds it drops back to "FOR HIRE" on its own.

REPRINT THE LAST JOB — THE QUICK WAY

- 1 From "FOR HIRE", press Button 4. *prints*
- 2 The duplicate of the previous job prints. Each further press prints another copy.
- 3 The printer icon shows while it runs. If it freezes, the print has failed.

REPRINT THE LAST JOB — THROUGH THE MENU

- 1 From "FOR HIRE", press Button 3 to open the menu.
- 2 Press Button 1 or Button 2 until "PRINT" appears. *PRINT*
- 3 Press Button 3 to confirm.
- 4 Press Button 1 or Button 2 until "DUPLICATE" appears. *DUPLICATE*
- 5 Press Button 3 to print.

PICK ONE OF THE LAST TEN JOBS

- 1 From "FOR HIRE", press Button 3 to open the menu.
- 2 Press Button 1 or Button 2 until "PRINT" appears, then Button 3. *PRINT*
- 3 Press Button 1 or Button 2 until "SEL DUP" appears. *SEL DUP*
- 4 Press Button 3 to confirm.
- 5 Press Button 1 or Button 2 to find the job you want by date.
- 6 Press Button 3 to print it.

* If the printer icon freezes

The print has not completed. Check the thermal roll is in the right way round and has not run out — a roll gives over 350 receipts, so it is easy to forget about until it goes. If the paper is fine and it still will not print, ring Pulsar Europe on +353 87 283 5120.

Stuck? Call Pulsar Europe on +353 87 283 5120.
