

TARIFF & REGULATORY PARAMETERS

NOTE

Reading only

Everything on this card is a read. Nothing here changes a fare. Under Irish law any change to a taximeter's programming has to be re-verified by the Legal Metrology Service, so if a figure is wrong the answer is a phone call, not a button press.

Worth doing before verification

Ten minutes with this card before your Applus appointment tells you your fares are right, your paperwork matches the meter, and there are no surprises waiting for you. Print both sets and bring the tickets with you.

*** If a figure does not look right**
Do not touch it. Ring Pulsar Europe on +353 87 283 5120 with the printed ticket in front of you and we will tell you in a minute whether it is correct for the current Irish national tariff. If it needs changing we will arrange an installer and the re-verification together.
